Projects

create websites with creative twinkles company

1 - Association for the Protection of the Environment

<http://ape-association.creativetwinkles.com>

This website is characterized by:

- Supports Arabic and English languages.
- Responsive on all devices.
- The site loading quickly. although the site has a lot of images and svg files

2 - Engineering And Trading Company Heto

<https://hetoegypt.com>

This website is characterized by:

- Responsive on all devices.
- clean code
- The site loading quickly. although the site has a lot of images and svg files

3 - Creative Twinkles Landing

<https://landing.creativetwinkles.com/social>

<https://landing.creativetwinkles.com/branding>

<https://landing.creativetwinkles.com/mobile>

<https://landing.creativetwinkles.com/motion>

The landing page is a stand-alone web page, created specifically for a marketing or advertising campaign. Unlike web pages, which typically have many goals and encourage exploration, landing pages are designed with a single goal focus

4 - wellpharmacy

<https://wellplus.medonln.com>

Citizens can register electronically on the wellpharmacy website to take vaccinations and immunizations, as well as make adjustments to dosage dates

Some projects that I create for myself

1 - zara ecommerce

<https://amr-ecommerce.netlify.app>

Large website ecommerce marketing products created using html, css, javascript, scss

2 - my portfolio

<https://focused-williams-b47ef1.netlify.app>

amazing website This site is a portfolio that contains all the sites that you've created.

update website with creative twinkles company

1 - yamaha

<https://uti-yamaha.com>

I have modified this site in many things like making the site more responsive, modifying the navigation bar, adding a lot of animation css and adding a new section

2 - lazuli voyages

<https://lazuli-voyages.com/en>

This site is very old and not responsive on phones. It was designed to work on PC only but after modification it became a responsive website on all phones, tablets and any other device

3 - nilepropertyexpo

<https://nilepropertyexpo.com>

There was a problem in this site in the images, the images were not clear, they were disorganized, I solved the problem using grid css
